

NY FORWARD SAFETY PLAN TEMPLATE

Each business or entity, including those that have been designated as essential under Empire State Development's Essential Business Guidance, must develop a written Safety Plan outlining how its workplace will prevent the spread of COVID-19. A business may fill out this template to fulfill the requirement, or may develop its own Safety Plan. **This plan does not need to be submitted to a state agency for approval** but must be retained on the premises of the business and must be made available to the New York State Department of Health (DOH) or local health or safety authorities in the event of an inspection.

Business owners should refer to the State's industry-specific guidance for more information on how to safely operate. For a list of regions and sectors that are authorized to re-open, as well as detailed guidance for each sector, please visit: forward.ny.gov. If your industry is not included in the posted guidance but your business has been operating as essential, please refer to ESD's [Essential Business Guidance](#) and adhere to the guidelines within this Safety Plan. Please continue to regularly check the New York Forward site for guidance that is applicable to your business or certain parts of your business functions, and consult the state and federal resources listed below.

COVID-19 Reopening Safety Plan

Name of Business:

Moriches Bay Sailing Foundation Inc.

Industry:

713990 Sailing Clubs Without Marinas

Address:

17 Remsen Lane, PO Box 347, Remsenburg, NY 11960

Contact Information:

Philip Smyth Tel: 917-502-1218

Owner/Manager of Business:

Philip Smyth

Human Resources Representative and Contact Information, if applicable:

N/A

I. PEOPLE

A. Physical Distancing. To ensure employees comply with physical distancing requirements, you agree that you will do the following:

- Ensure 6 ft. distance between personnel, unless safety or core function of the work activity requires a shorter distance. Any time personnel are less than 6 ft. apart from one another, personnel must wear acceptable face coverings.
- Tightly confined spaces will be occupied by only one individual at a time, unless all occupants are wearing face coverings. If occupied by more than one person, will keep occupancy under 50% of maximum capacity.

- ✓ Post social distancing markers using tape or signs that denote 6 ft. of spacing in commonly used and other applicable areas on the site (e.g. clock in/out stations, health screening stations)
- ✓ Limit in-person gatherings as much as possible and use tele- or video-conferencing whenever possible. Essential in-person gatherings (e.g. meetings) should be held in open, well-ventilated spaces with appropriate social distancing among participants.
- ✓ Establish designated areas for pick-ups and deliveries, limiting contact to the extent possible.

List common situations that may not allow for 6 ft. of distance between individuals. What measures will you implement to ensure the safety of your employees in such situations?

"Double Handed" Two person racing dinghy. Outdoors, wind, UV/Sunlight. Face covering ("buff") worn to fullest extent possible.

How you will manage engagement with customers and visitors on these requirements (as applicable)?

Sailors will drive self or be dropped off. No one present in boat rigging area other than sailors, coaches and administrators. Generally expect fewer than 10 people in an area at any given time. Boats will be position 6 feet+ apart during rigging.

How you will manage industry-specific physical social distancing (e.g., shift changes, lunch breaks) (as applicable)?

Sailors will maintain social distancing off the water with exception of boat rigging by skipper / crew (see above). Face covering will be worn any time sailors are within 6 feet of one another.

II. PLACES

A. Protective Equipment. To ensure employees comply with protective equipment requirements, you agree that you will do the following:

- ✓ Employers must provide employees with an acceptable face covering at no-cost to the employee and have an adequate supply of coverings in case of replacement.

What quantity of face coverings – and any other PPE – will you need to procure to ensure that you always have a sufficient supply on hand for employees and visitors? How will you procure these supplies?

One "Buff" will be provided for each sailor and coach / staff.

- Face coverings must be cleaned or replaced after use or when damaged or soiled, may not be shared, and should be properly stored or discarded.

What policy will you implement to ensure that PPE is appropriately cleaned, stored, and/or discarded?

Each sailor will write name on "buff" with indelible laundry marker. Sailors will be responsible for laundering own "buff."

- Limit the sharing of objects and discourage touching of shared surfaces; or, when in contact with shared objects or frequently touched areas, wear gloves (trade-appropriate or medical); or, sanitize or wash hands before and after contact.

List common objects that are likely to be shared between employees. What measures will you implement to ensure the safety of your employees when using these objects?

Sails, spars, rigging materials. Sailors will wash hands after handling these objects during rigging / derigging.

B. Hygiene and Cleaning. To ensure employees comply with hygiene and cleaning requirements, you agree that you will do the following:

- Adhere to hygiene and sanitation requirements from the [Centers for Disease Control and Prevention](#) (CDC) and [Department of Health](#) (DOH) and maintain cleaning logs on site that document date, time, and scope of cleaning.

Who will be responsible for maintaining a cleaning log? Where will the log be kept?

Parent advisor will have ultimate responsibility for cleaning log. Log will be kept with parent advisor and will be furnished on demand.

- Provide and maintain hand hygiene stations for personnel, including handwashing with soap, water, and paper towels, or an alcohol-based hand sanitizer containing 60% or more alcohol for areas where handwashing is not feasible.

Where on the work location will you provide employees with access to the appropriate hand hygiene and/or sanitizing products and how will you promote good hand hygiene?

Hand sanitizer and / or outdoor hand wash facility will be provided.

- Conduct regular cleaning and disinfection at least after every shift, daily, or more frequently as needed, and frequent cleaning and disinfection of shared objects (e.g. tools, machinery) and surfaces, as well as high transit areas, such as restrooms and common areas, must be completed.

What policies will you implement to ensure regular cleaning and disinfection of your worksite and any shared objects or materials, using [products](#) identified as effective against COVID-19?

Rigging / Spars etc. will be washed with marine safe cleaners.

C. Communication. To ensure the business and its employees comply with communication requirements, you agree that you will do the following:

- Post signage throughout the site to remind personnel to adhere to proper hygiene, social distancing rules, appropriate use of PPE, and cleaning and disinfecting protocols.
- Establish a communication plan for employees, visitors, and customers with a consistent means to provide updated information.
- Maintain a continuous log of every person, including workers and visitors, who may have close contact with other individuals at the work site or area; excluding deliveries that are performed with appropriate PPE or through contactless means; excluding customers, who may be encouraged to provide contact information to be logged but are not mandated to do so.

Which employee(s) will be in charge of maintaining a log of each person that enters the site (excluding customers and deliveries that are performed with appropriate PPE or through contactless means), and where will the log be kept?

Parent advisor and / or coaches will maintain attendance log. Log will be kept with parent advisor.

- If a worker tests positive for COVID-19, employer must immediately notify state and local health departments and cooperate with contact tracing efforts, including notification of potential contacts, such as workers or visitors who had close contact with the individual, while maintaining confidentiality required by state and federal law and regulations.

If a worker tests positive for COVID-19, which employee(s) will be responsible for notifying state and local health departments?

Parent Advisor

III. PROCESS

A. Screening. To ensure the business and its employees comply with protective equipment requirements, you agree that you will do the following:

- Implement mandatory health screening assessment (e.g. questionnaire, temperature check) before employees begin work each day and for essential visitors, asking about (1) COVID-19 [symptoms](#) in past 14 days, (2) positive COVID-19 test in past 14 days, and/or (3) close contact with confirmed or suspected COVID-19 case in past 14 days. Assessment responses must be reviewed every day and such review must be documented.

What type(s) of daily health and screening practices will you implement? Will the screening be done before employee gets to work or on site? Who will be responsible for performing them, and how will those individuals be trained?

Sailors will be asked about prior COVID-19 symptoms when registering for program. Sailors will be directed not to arrive at sailing area if they are showing any COVID-19 symptoms. Sailors with flu-like symptoms will be encouraged to seek COVID-19 testing at health provider before returning to sailing.

If screening onsite, how much PPE will be required for the responsible parties carrying out the screening practices? How will you supply this PPE?

B. Contact tracing and disinfection of contaminated areas. To ensure the business and its employees comply with contact tracing and disinfection requirements, you agree that you will do the following:

- Have a plan for cleaning, disinfection, and contact tracing in the event of a positive case.

In the case of an employee testing positive for COVID-19, how will you clean the applicable contaminated areas? What products identified as effective against COVID-19 will you need and how will you acquire them?

Substantially all activities will be conducted outdoors. Any equipment used by someone testing positive will be thoroughly cleaned with marine safe disinfecting cleaners.

In the case of an employee testing positive for COVID-19, how will you trace close contacts in the workplace? How will you inform close contacts that they may have been exposed to COVID-19?

All sailors / families of sailors present will be notified if someone tests positive for COVID-19.

IV. OTHER

Please use this space to provide additional details about your business's Safety Plan, including anything to address specific industry guidance.

Moriches Bay Sailing Foundation Inc. is a 501(c)(3) public charity with a mission to promote safe access to sailing for young sailors. A copy of our IRS determination letter can be found at:
